

Vibration

Sensor Wireless

MD-2020

Specification

Overview

Support to adjust via RS485 or manually

Working current Static $\leq 20\text{mA}$, Alarm $\leq 35\text{mA}$, DC9-15V

Apply 3axis gyro sensor for quick response to vibration and tilt at the same time

Detection area Radius 5 Meters

Size 90*90*28mm

Tamper proof, explosion-proof, Built-in Temperature sensor
