

# Glass Break

## Detector Wired

### MD-343

- Twin-stage potentiometer.
- Built in audio analysis of microprocessor.
- With anti-tamper function, networking alarm output

## Specification

### Overview

Detection 2group quad PIR + dual MW

Detection distance 3m@25°C

Detection angle 20°

MW frequency 10.525GHz

Working voltage 9VDC~15VDC

Working current 100μA(standby) 35mA(alarm)

Installation height : 1.8m~2.4m

Working temperature -10°C - +50°C

Anti-white light >15000LUX

Anti-EMI >30V/m (30MHz~1GHz)

Emitting frequency 433MHz/868MHz

Emitting power ≤10dB

Dimension 230mm×66mm×36mm
