Detector
Series

CO01-ZB

When used with the gateway, when the gas pool tide is detected, the alarm message will be pushed to the APP in time. Combined with the high-decibel buzzer alarm, it will protect your safety.

Specification

Overview			
Magnetic force range	2.5 CM	Working voltage	DC3V 1*CR2032 button lithium battery
Transmit distance	30-50 m (indoor)	Working current	≤10uA monitoring, ≤20mA alarm
Wireless networking	Door open, tamper proof, low voltage	Working environment	-10°C~50°C, <95% RH
Wireless networking	Zigbee IEEE802.15.4	Dimensions	Transmitter 76*25.2*12mm, Magnetic stripe 72.4*10*11mm
