Detector
Series

GA01-ZB

When the gas concentration reaches the alarm value on that day, the device will immediately send an alarm signal and push the signal to the mobile APP. At the same time, the manipulator will be linked to close the gas valve to block gas leakage in time!

Specification

Overview			
Measurable gases	Natural gas, coal gas, liquefied petroleum gas	Alarm mode	Sound and light alarm, output alarm signal
Alarm concentration	±3%LEL	Wireless networking	Zigbee IEEE802.15.4
Buzzer volume	70dB (within 1 meter)	Dimensions	Φ65*H51mm
