Detector
Series

HP02-ZB

Without circuit modification, the traditional air conditioner can realize intelligent control such as remote control, timing switch and temperature adjustment, allowing users to experience the convenience and charm of smart home in a simple way.

Specification

Overview			
Transmit distance	30-50m(indoor)	Working environment	-10°C~50°C, <95%RH
Wireless networking	Zigbee IEEE802.15.4	Power supply mode	AC110V—240V
Control way	Manual or APP control	Dimensions	50*50*28mm
Max working power	2200W
