Detector
Series

PT01-ZB

When the detector detects that the indoor air quality has deteriorated beyond the standard, it can report air quality data in real time.

Specification

Overview			
Battery configuration	3.6V 500mAh rechargeable battery	PM2.5 measurement range	±10%
Formaldehyde measurement range	0-5mg/m³	Wireless networking	ZigBee/WiFi
Formaldehyde measurement acuracy	±5%	Working current	≤10uA monitoring ≤20mA alarm
