Detector
Series

TH01-ZB

When the gas concentration reaches the alarm value on that day, the device will immediately send an alarm signal and push the signal to the mobile APP. At the same time, the manipulator will be linked to close the gas valve to block gas leakage in time!

Specification

Overview			
Ultra-low power consumption	Long battery standby	Working voltage	DC3V 1XCR2450 button battery
Alarm content	Low voltage alarm	Working current	≤10uA monitoring, ≤20mA
Temperature measurement accuracy	±0.3C°	Working environment	-10°C~50°C,<95%RH
Humidity measurement accuracy	±0.3%	Dimensions	60X20mm
Wireless networking	Zigbee
