Headset

HT201/HT202

HT201 & HT202 offer a range of premium quality headsets using innovative acoustic technology to deliver speech clarity and an excellent audio experience. Coupled with our sleek design that focuses on comfort and durability, the Fanvil HT201 & HT202 headset offers a new level of experience for call center professionals.

Highlights

- **Revolutionary Sound:**
  Taking engineering and product design to new levels, this Danish designed acoustic equalizer structure, maximises the benefits of HD speakers to create a headset that excels in its class for clarity and performance
- **Compatibility:**
  Find solutions for your communications environments
- **Technology:**
  Providing every headset user the ultimate experience with innovative technology, our goal is to create headsets that not only offer hearing protection but excel in comfort when worn all day.
- **Exquisite Design:**
  A functional tool that looks as good as any accessory worn by our end-users. Employing high quality materials, such as stainless steel, aluminium alloy and ABS raw material, Fanvil headsets are designed to meet the rigours and demands of the busiest call centres
- **Inspiration:**
  Designed to withstand the the intensive demands of contact centres – Fanvil HT201 & HT202 is made with only the best materials to create a robust yet stylish headset
- **Independence:**
  No one likes to be tied to their desk. Walk away when you like with a quick disconnect cable. No need to remove the headset and simply re-connect the cable when you're ready to get back to your calls.

Specification
