Vibration
Sensor Wireless

MD-2020

Specification

Overview	
Support to adjust via RS485 or manually	
Working current	Static ≤20mA,Alarm≤35mA, DC9-15V
Apply 3axis gyro sensor for quick response to vibration and tilt at the same time	
Detection area	Radius 5 Meters
Size	90*90*28mm
Tampler proof,explosion-proof, Built-in Temperature sensor
