Vibration Sensor
Wireless

MD-2018RF

- Adopts vibration ,Touch
- Movable omnidirectional detection principle

MD-2018R vibration sensor has nice appearance, simple operation, easy to installed and strong applicability, can send out alarm signal accurate -ly, as well as monitor violent acts effectively. Pulse counting can be adjustment.

Specification

Overview	
Working Voltage	3V
Working Environment	433 MHz
Transmitting frequency	433MHz/868MHZ±50KHZ
Alarm	Vibration
Signal	150m (in open area)
Working current	≤10μA
