Wireless Keypad

PB-502R

PB-502R(RD) is a MIN wireless dual-way communication LCD keypad. It has nice and new design, stable Performance. Can use it to control all of wireless panels and all the communication.

Specification

Overview	
Working Voltage	3.7V/1200mA
Standby	≤60uA（working≤25mA）
Wireless distance	75m（in the open air）

PB-500R

PB-500R is a type of "mini" wireless dual-way remote controller with novel design, smooth lines, nice craft, stable performance. It can control our wireless alarm panel to realize remote controlling the panel and all the information of the panel.

Specification

Overview	
Working Voltage	6V（AAA1.5V*4）
Standby	≤60μA
Working current	≤25mA
Transmitting distance	100m (open air)
Transmitting power	12dB
Transmitting frequency	433MHz/868MHz
